CRIFUSING®

产品简介

Crifusing®系列产品是将玻璃表面熔融定型的装饰性玻璃。
玻璃表面可制成各种褶皱和花纹，便于进行立体设计。每种设计均需定制独特模具。

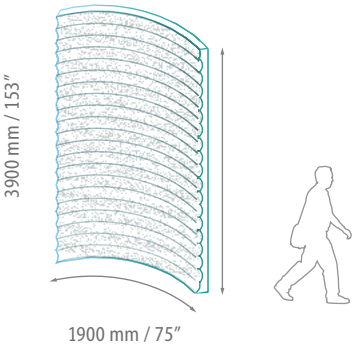

Definition

It is a decorative glass whose surface is moulded using a fusion process. This makes three-dimensional design possible, forming various relief patterns on the surface of the glass. Each design entails manufacturing a specific mould.

尺寸 Dimensions

欢迎垂询定制更大尺寸产品Cricursa
For larger dimensions, please contact Cricursa

玻璃厚度	Glass Thickness
1/2"	12 mm
5/8"	15 mm
3/4"	19 mm
