安全夹层玻璃 Safety laminated glass

产品简介

当代建筑和现代室内设计中越来越多地使用能同时满足安全性和美学要求的新型高性能材料。

安全夹胶玻璃同时拥有PVB夹胶玻璃的安全和高性能以及曲面玻璃的优美和现代感。

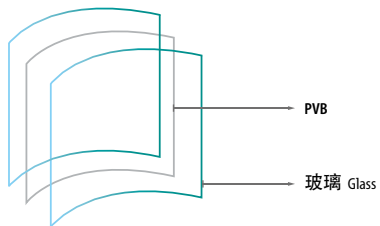

安全夹胶玻璃由至少两块曲面安全玻璃和PVB夹层组成, PVB夹层保证玻璃在破裂后仍能保持完整。

Definition

Contemporary architecture and modern interior design are increasingly more interested in new high performance materials which meet up-to-date security and aesthetic requirements.

Safety laminated glass combines the beauty and contemporary feel of curved glass with the safety and high performance of PVB laminated glass.

Safety laminated glass is made of at least two parts of curved safety glass onto layers of PVB, which would hold the piece together in case of breakage.
